Composite Doors

What is a composite door?

Your front door is one of the most important features of your home, so why not create a stylish entrance that you, your guests and passers-by can admire. Come home to a centrepiece that is strong, safe and secure, functional for everyday use, energy efficient and pleasing on the eye.

Our composite doors incorporate a combination of the finest quality components that all purposefully work together to create a high performance door. The surface of the door is made from GRP (Glass Reinforced Polyester), which is considerably stronger than PVCu.

The Definitive Collection composite door is built to last and will easily stand up to the challenging demands of the British climate.

Since 15th June 2022, updated building regulations relating to windows and doors have been in effect across the UK, covering both replacement and new-build installations. The required 'U' value for replacement products differs from that for new-build projects. In addition, the 'U' value of each door will vary depending on its design and glazing specification. For any new build projects, once you have chosen your new door, please consult with your installer to make sure the correct 'U' value is being used for your SAP calculation, which in turn determines your energy performance certificate.

You can be assured that all of the Definitive Collection Composite Doors achieve excellent 'U' Values, with all doors performing to the new regulations for replacement installations. The 'U' value is a measurement designed to measure heat loss through products such as windows and doors, the lower the value the more energy efficient the product becomes.

Our composite doors are all bespoke and are individually made to measure with your own personal specification and colour/design choices. Our doors are covered by a comprehensive guarantee so please speak to your installer for further details.

"Raising security standards with an uncompromising approach to designing out crime"

Who we are...

The philosophy underpinning The Definitive Collection is driven by our desire to offer you products that have been designed and manufactured with a 'no compromise' attitude.

Regardless of the style of property you live in, we are sure to have a perfect solution to meet your design aspirations. The Definitive Collection offers you a comprehensive choice of products either from our classically styled sculptured range or from our more contemporary styled chamfered range.

High performance solutions are available to suit any application, whether you are looking for a sympathetic door replacement for your 18th century farmhouse, or a more contemporary look for a modern house or city centre apartment. You can even have your door in any colour you want! Your decision...Your choice...

The Definitive Collection has built a strong reputation over the last 30 years for taking an uncompromising approach to the components we use. Unlike windows, a front door is generally used several times every day and therefore the locks and furniture need to be of the highest quality. We only fit premium branded products that we are confident will last year after year standing up to the toughest conditions with our changing British climate.

Why you should buy Definitive

- Weatherproof
- Accredited
- 10 Year Guarantee*
- Approved Installer Network
- High Quality Materials
- Made In Britain
- Energy Efficient
- Stylish
- Strong & Secure

*Please note: Not all products are covered by a 10-year guarantee. Where a different guarantee applies, this is clearly stated on the relevant product page within the brochure.

One philosophy... Two choices...

As well as choice of style, colour and glass, you can also choose from one of our two frame design options to create that perfect match. The frame designs are also available in a range of coloured and wood-grained foils.

"VEKA is the most specified profile in the world"

Composite Door Features

1. Optional 44mm Aluminium Threshold
2. Colour matched Aluminium weather-bar
3. GRP compression moulded skins
4. **Polyurethane thermally insulated core. The thermal performance of this product is far superior to timber**
5. Engineered timber frame
6. Market leading adjustable Butt hinge
7. Wool-pile weather seal
8. Galvanised Steel reinforcing
9. Black low line gasket
10. Choice of Sculptured or Chamfered outer-frame
11. 2mm PVC Grained edge-banding
12. Foam bung reduces perimeter air circulation from drainage holes

the outer skin...

The outer skin is compression moulded using Glass Reinforced Polyester. This creates a high definition grain effect that cannot be achieved using standard panel technology.

the core...

The core is filled with an insulating core of 100% CFC-free polyurethane. The performance of this product is exceptional, outperforming timber nine times.

the perimeter...

The core and timber surround is protected by a perimeter of water resistant polymer instead of timber. Rather than purely relying on treated timber, this product ensures that no water can penetrate to the core. Being a polymer, it has none of the drawbacks of timber.

Thresholds

We offer a wide range of thresholds for our composite doors.

27mm Clearance Under The Door

27mm Clearance Under The Door

Our aluminium 44mm rebated threshold carries the best weather performance and is available in either silver or gold. The shape of this threshold mirrors either the chamfered or sculptured frames providing a suited product.

39/55mm Clearance Under The Door

We also offer two different sizes of PVCu threshold.

19mm Clearance Under The Door

Our lowest profile threshold is available in either silver or gold and is suitable for wheelchair access using the optional ramps that can be fitted both internally and externally.

Safe and Secure

As one of the oldest international brands, Yale is among the most respected names in the lock industry, with millions of Yale locks in use worldwide.

You will be comforted to know that our Composite doors are fitted with the world's leading lock brand Yale as standard with the exception of our contemporary door range which are generally fitted with Winkhaus key-wind locks. Both Yale and Winkhaus products are accredited with 'Secured by Design'.

The Winkhaus 'Thunderbolt' key-wind lock is used in conjunction with our stainless steel bar handles or any door supplied without a lever handle. The euro cylinder (where you put the key) is positioned higher up the door. When the door is closed the lock will engage on the latch only. To lock or unlock the door from outside, a key is required as standard. For added convenience, you can upgrade to our Daytime Latch (see page 8), allowing external access without the need for a key.

Latest technology

The Definitive Collection offers you the latest technology in high security cylinders to provide the ultimate resistance against all known attack methods.

The euro cylinder lock (which is where you put your key to lock the door) is the single most important safety feature on any door. The Yale cylinder carries the highest accreditation available in the UK, all of which is demonstrated on page 6

The world's favourite lock

Our composite doors all come with
5 keys as standard

Due to supply chain disruption we reserve the right to change some of the products featured with an equivalent specified product without prior notification

Yale Platinum Ultra 3 Star Cylinder

Inner strength - Dedicated central bridge delivers protection from external attack.

Anti-Snap - The external section of the cylinder is designed to snap under attack, leaving your home safe and secure.

Anti-Bump - Specialised side pins provide bump resistance.

Anti-Pick - The unique technology features a combination of tumbler and side pins, designed to resist lock picking.

Anti-Drill - Hardened steel protection incorporated in the cylinder provides resistance against drill attacks.

Anti-Freeze - A specialised protective shield prevents intrusion by resisting ice-based methods used to tamper with the mechanism.

Anti-Glue - Specifically designed cylinder clutch protection prevents attacks using glue.

Secured by Design only applies to Yale and Winkhaus lock Strips and Yale 3 star cylinders.

Enjoy total peace of mind with Yale Lifetime Total Trust Guarantee

Across the world, millions of people protect everything they care about - their families, homes and personal belongings - with Yale, the best known and most respected name in home security.

Designed, developed and tested by the UK's most trusted lock company, the Yale Platinum Ultra 3-star cylinder is so secure that if your home is broken into during a burglary, it's backed by Yale's £5,000* security guarantee, including a £1,000 goodwill payment to apologise for the inconvenience caused.

*All Yale Cylinders must be registered within 30 days of installation at **help.yale.co.uk**

Up to £5,000 total cover across repairs, replacement, insurance excess and goodwill payments. Terms apply.

Anything but standard.

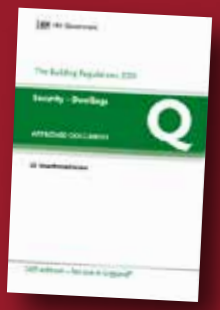
We are Document Q approved! But what does this mean ?

In 2015, changes were made to Building Regulations which are outlined in Approved Document Q.

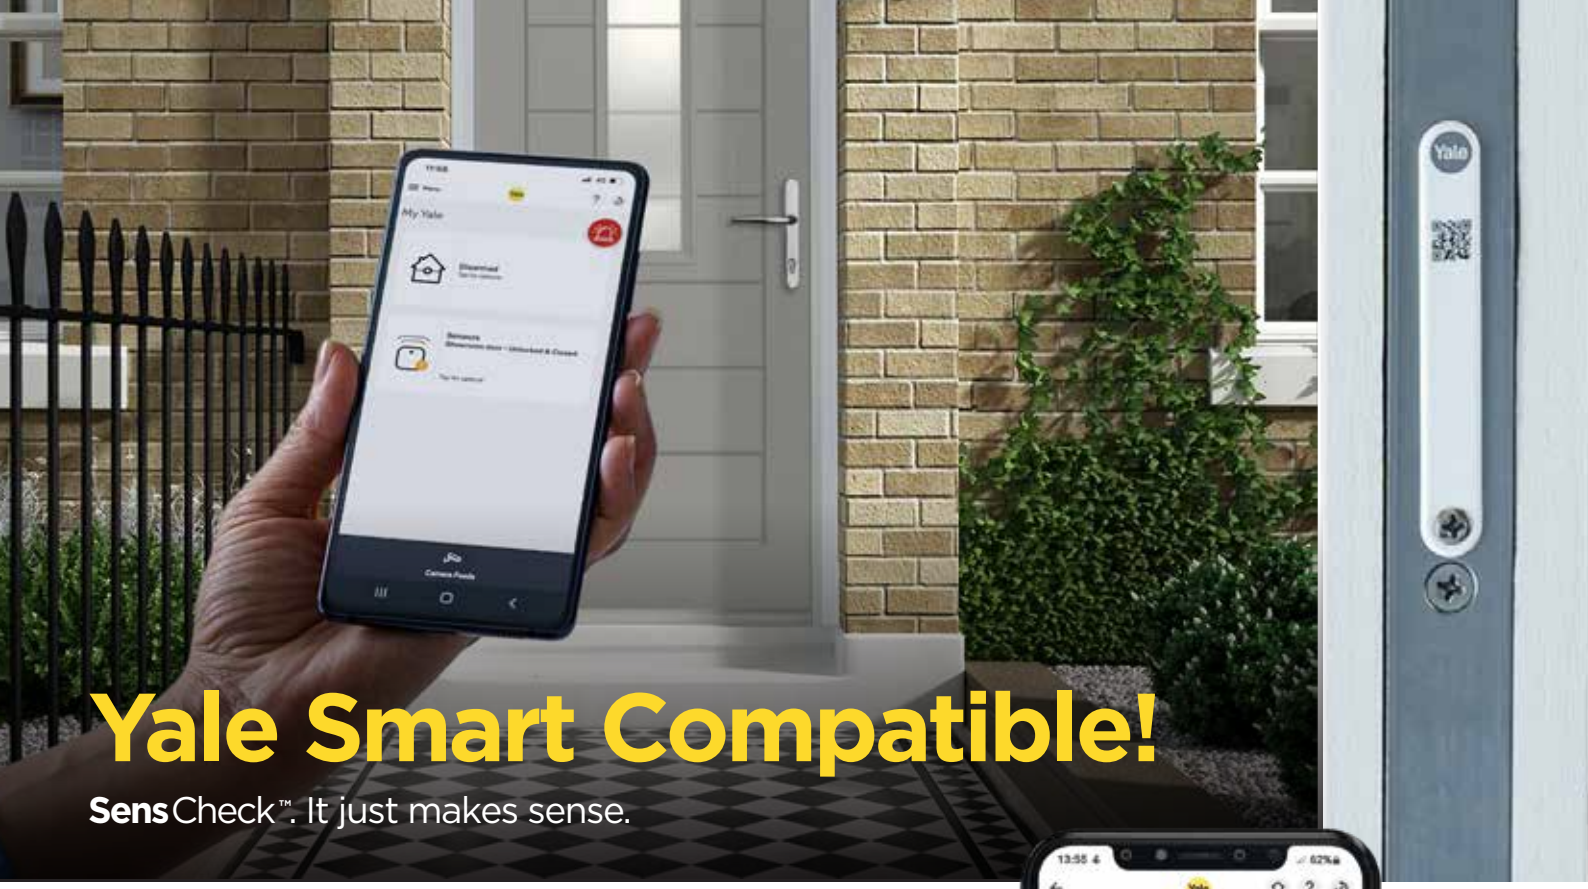
All New Build homes started after October 2016 must meet the enhanced security requirements of Document Q. (ADQ does not apply to any extensions, Sun rooms or Conservatories)

To comply with Document Q, our doors must by law feature upgraded security enhancements via the cylinder, slab and glass. This is an upgrade available on our doors, they do not come Document Q approved as standard.

If you are unsure if this applies to your door then you must speak to a Registered Building Inspector.



Did you know... Over 70% of all burglaries are accessed through a door, **yet there is no minimum security standard in the UK for replacement doors.** Rest assured that all Definitive Collection doors are fitted with Yale or Winkhaus multi-point locks and 3 star high security euro cylinders as standard.



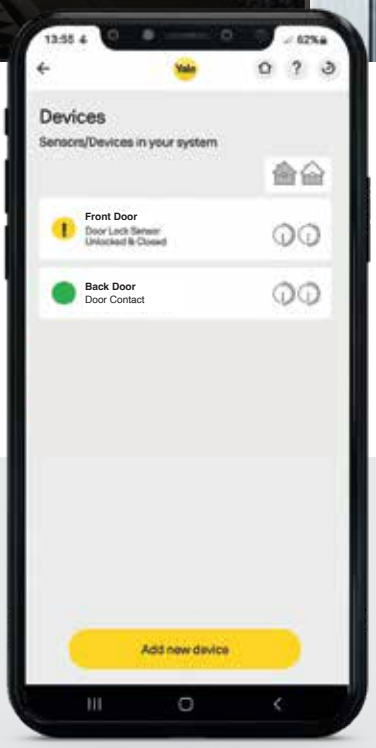
Yale Smart Compatible!

SensCheck™. It just makes sense.

Is my home safe and secure?

Know the answer, at home or away with Yale **Sens**Check™ Door Sensors. Yale **Sens**Check™ Sensors put you in control of your home security.

Monitor the status of your doors from anywhere at any time via the Yale Smart Living Home App. Receive notifications and tamper alerts straight to your smartphone, or chime notifications when the status or your composite door changes.



Easy Set-up

Wireless

Real-time Notifications

Live Status

Geo-fencing

Arm/ Part Arm

Using **Sens**Check™ Sensors, you can check to see the status of your home, from anywhere, anytime.

Yale **Sens**Check™ Sensors are simple to install in compatible smart doors, and are easy to set up and control through the Smart Living Home App.

Benefits of Sens Check™ **include:**

- Sensor status notifications and tamper alerts
- Geo-fencing notifications
- Part Arm functionality
- Chime notifications
- Integration with Amazon Alexa, Google Assistant and Philips Hue
- BSI IoT accredited
- Ability to upgrade to the full Yale Smart Security

Yale + The Definitive COLLECTION

The ultimate in Home Security

The Yale **Sens**Check™ Door Sensors can be monitored through the Yale Home App, giving you total peace of mind and reassurance that your home is secure.

*This product is currently only available on lever/lever doors and carries a 2 year guarantee on the SensCheck.

Daytime latch – the trick with the click

Intelligent locking, beautifully simple.

Safety switch latch feature

The Safety Switch Latch is available as an optional upgrade and can be paired with our 'Thunderbolt' key-wind lock. Designed to offer both convenience and security, it helps prevent accidental lockouts while ensuring your door remains safe and secure as soon as it is closed using the no access facility.

NO ACCESS
When the switch is in the up position, a key is required for access

ACCESS ALLOWED
When the switch is in the down position, (as shown) the door can be pushed open

Closed doesn't have to mean locked!

At the Definitive Collection, we believe great door design should enhance everyday living, not complicate it. That is why we partner with industry-leading hardware specialists to deliver modern solutions to long-standing challenges in door security and usability.

Traditional slam-lock doors fitted with bar handles automatically lock when closed. While secure, this can be impractical for busy households, particularly for families with young children. This carries the constant risk of being locked out when stepping outside momentarily.

Our solution is the **Optional upgraded Winkhaus Tafa Switch** - an intelligent locking mechanism designed to give you control. With one simple switch on the latch, you can choose whether your door locks automatically when closed or remains securely latched and accessible from outside. No tools. No compromise on security.

This innovative system resolves an age-old problem with a modern, secure, and cost-effective solution. It delivers the protection you expect from a high-performance composite door, while adding the flexibility today's lifestyle demands.

Smart security. Practical design. Everyday peace of mind.

Please note: This locking option is not covered by the Yale guarantee referenced on page 6, and all doors requiring a Winkhaus lock (pull escutcheon/bar handle) will be supplied with 3-point locking.

Living Life in Colour...

Colour has the ability to change your mood, spark an idea and trigger a reaction. We categorise things by colour and we all have our favourites. That's why it's important to choose the right colour for your front door; you are setting the mood for the whole house.

Discover deeper, richer tones; classic and delicate neutrals; and shades designed to bring joy. You can choose a colour for both inside and out, and they don't need to match.

To truly let your imagination run wild, you can specify your composite door in any colour you want with our Bespoke painted range. Our door leafs & outer frames are available in over 1 million colour combinations.

Bespoke Painted Colours*

The Definitive Collection Composite Door range can be supplied in any colour for a small premium. All we need is a RAL colour or recognised BS reference and your new door will represent your individuality. A Definitive Collection installer will guide you through the process to help create your perfect door.

All doors are supplied using a Satin finish. The colours of the doors and glass shown in this brochure are for guidance only and may vary owing to the limitations of the photographic reproduction and printing processes.

*Please note, all bespoke painted colours carry a 5 year colour fast guarantee. Bespoke RAL colours displayed are a representation only. We cannot guarantee an exact colour match due to the limitations of the photographic, reproduction and printing processes. It is advised that due to print limitations that you view your chosen RAL colour on a RAL swatch with your installer prior to ordering.

THE TRADITIONAL COLLECTION

The Traditional Collection incorporates historical design classics that are sure never to fade in their appeal. Homeowners will feel comfortable in their choice of elegant styles rich in variety, colour and heritage. Complimented by classical glass designs and furniture the Traditional Collection will stand the test of time.

THE CONTEMPORARY COLLECTION

The Contemporary Collection is modern, current and exciting marked by characteristics of the present period. Very much of the moment, contemporary design is bold and increasing in demand, typically breathing new life into older buildings. The choice of glass and furniture can amplify and express the contemporary statement to define your new entrance.

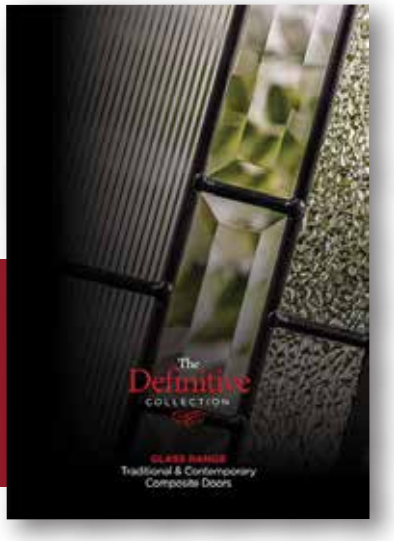
DEFINITIVE GLASS COLLECTION

The entrance to your home sets the tone for everything beyond it. It is a moment of arrival, a first impression that should feel considered, confident, and unmistakably personal. Our Door Glass Collection has been created to elevate that moment, combining refined design with exceptional craftsmanship.

On the following pages, you'll find a closer look at some of our most popular designs. For the complete collection, scan the QR code to the right and explore the full range.



Triple glazed

REFLECTIONS

This stunning contemporary design incorporates clear, textured and subtle grey glass in a striking design, where light beautifully refracts and reflects ffo the bevelled edges. The glass choices provide good levels of privacy whilst still allowing light to flood into your home. The design is manufactured using high gloss, black chrome cameing.

Custom Etch Letters & Numbers

SCAN THE QR CODE TO FIND OUT MORE

The Definitive Collection of Custom Etch Letters and Numbers is available in a range of 6 styles and 4 fonts, ranging from traditional to contemporary, and makes a striking statement whether used in the door glass itself or in the sidelights/toplights

We offer standard sizes for the composite doors featured in this brochure. We also offer a custom size service for use in Toplights and Sidelights.

All our custom etch designs are produced using sandblast techniques and with a computer designed 'resist' cutter, we can ensure perfectly created letters and numbers every time.

Once the design is created, it is then incorporated within a high performance insulated glass unit using warm edge spacer and low E glass.

For areas where extra security may be required, we also offer the range in our Security+ laminated glass units.

For new-build homes, Building Regulations (Approved Document Q) require laminated glass for enhanced security. Unlike toughened glass, it stays intact when broken, helping prevent forced entry.

Please Note: All our custom etch letters and numbers are created using sandblasting techniques and may look different to screen printed 'etch-effect' glass. We recommend any glass units which need to match visually, are ordered at the same time to ensure consistency.

Specifying your Custom Etched Letters and Numbers is as easy as **1... 2... 3...**

HANDCRAFTED COLLECTION

Add a unique and personal touch to your door with our bespoke collection of handcrafted brass knockers. Designed to harmonise with our classic door furniture, each knocker is crafted with a similar, though not identical, colour palette, ensuring a complementary yet distinctive look. Made from premium brass, these knockers are built to last, developing a one-of-a-kind patina as they age. More than a functional detail, these accents make a refined statement, adding both style and personality to your door.

Bee
shown in Brass

Please note: Bee Not available on Scalby

Highland Cow
shown in Pewter

Bee Hive
shown in Satin

Dragonfly
shown in Nickel

Our Handcrafted finishes are backed by a generous 2-year warranty, offering protection against corrosion while allowing the brass to naturally patina, adding depth and character over time. This finish is designed to age gracefully, creating a unique look that enhances its charm as the years go by.

Please note: The Handcrafted Collection of door knockers, may not be an exact match to handles and letterplates due to variations in finish and materials. We have indicated the closest match below, but some visual differences are present.

The Definitive COLLECTION

THE STABLE COLLECTION

The Definitive Collection Stable Doors combine the traditional charm of stable doors with modern materials, offering a perfect blend of aesthetics and functionality. With their timeless appeal, versatility, and low maintenance requirements, composite stable doors are a wise investment for homeowners seeking a reliable, stylish, and long-lasting entryway solution.

The most advanced Composite Stable door on the market

The Definitive Collection Stable Door stands out as a truly unique and unrivalled option in the market. What sets it apart is its exceptional combination of bespoke craftsmanship and cutting-edge engineering, incorporating market first components designed with functionality and quality in mind.

All glass units are thermally efficient to meet the new increased requirements

Aluminium colour matched, thermally broken meeting rail unique to the Definitive collection Stable door range

Yale 3 Star keyed alike cylinders (top & bottom) fitted as standard, Key/key and thumbturn combinations available

New Yale stable door lock fitted as standard allowing external access, with latch facility for ease of use

Aluminium colour matched meeting rail

Market leading 2D adjustable butt hinges as standard, available in a range of colours to suit

Timeless design and modern functionality

Whether you desire a classic or contemporary aesthetic, this door offers an exquisite blend of timeless design and modern functionality, delivering an unmatched level of quality and elegance to elevate any home.

SCAN QR CODE TO FIND OUT MORE

All stable doors ordered colour in & out will have a white meeting rail (only visible in the open stable position), this is due to the paint limitations around the thermal break

Stable door benefits

The Definitive collection stable door surpasses others on the market by not only meeting but exceeding the highest industry standards in terms of quality, durability, and performance

Benefit	Our Stable Door	Other Stable Doors
Lockable door leafs via concealed shootbolt removing the need for a face mounted dead bolt or internal rack bolt	✓	✗
Colour matched, low profile, thermally broken meeting rail as standard	✓	✗
Retractable latch allowing the door to be operated without depressing the handle (hands free operation)	✓	✗
Roller latch facility on lower leaf removing the need for a key or thumbturn operation to secure in closed position	✓	✗
Every stable door manufactured is installed and operated in a steel rig with footage captured for quality and assurance purposes	✓	✗
